for abusing his family.

John Miller, for using abusive language towards Market Master Bentz, was fined \$2 and costs.

DISTRICT TRIMBRAPH.—Considerable commotion was created on Saturday by testing the fire alarm. We were premature in announcing the hour in our Saturday issue, as it disclosed to the firement the time at which the test would be made. The Committee of Counciliumen therefore changed the time, sending the alarm from the signal box located at Laramie's restaurant at 12:15 instead of 2 P.M., as was announced, and the engines arrived in the following order: The Vigilant in eight minutes, and the Atlantic about one minute later. The delay was caused by the firemen mistaking the signal for No. 56. But for this the Atlantic would have arrived irom 2 to 3 minutes sooner. The DISTRICT TELEGRAPH.-Considerable

But for this the Atlantic would have arrived from 2 to 3 minutes sooner. The United did not put in an sppearance, and it was secretained subsequently that the reason was because the card in the engine house simply gave the number, 1325 Market atreet, without Laramie's name, and the firemen decided that it was not a proper signal.

The committee, not satisfied with the morning test, made another at 2:45 P. M. from signal box 34, at No. 1118 Market street. The Fourth Ward reel strived in six minutes; the Atlantic engine, the Fifth Ward-reel, and the Hook and Ladder, drawn by the United's horses, in eight minutes, and the Vigilant in nine minutes. A little delay occurred in getting the signal to the Districtoffice, caused by a break in the wire. It was soon discovered and repaired. The gong in the Atlantic House did not sound the last signal, the fireman in charge having allowed. signal, the fireman in charge having al-lowed the clock work to run down. It was hardly to be expected that so new a was hardly to be expected that so new a hing, involving so many conditions, would go off right the first time, but on the whole the test was a success, and demonstrated the utility of the enterprise and enabled our firemen to make a splendid showing.

The operators in the District office complain that idle tests are permitted to be made. It should be borne in mind that trifling with the instruments defeats the very purpose of the system.

Mrs. DoBois played the accompaniments to most of the soles, while Mrs. J. D. Stanton trained and accompanied the chorus. The latter lady was quite ill Saturdav and unable to come to the matinee, which was the reason the chorus did not go off so well at that performance. A Visit to the Odicial visit of the Committee on Poor House and Farm of the Board of Commissioners to the county laffirmary, on Saturday last, was of more than usual significance, owing to the presence of a number of invited guesta. It capt. R. T. Devries, the popular agent of the B. & O. Rallroad in this city, had kindly placed a special train at the disposal of the Committee and their guests, and at 2 r. At the Infirmary the party were received by Poor Agent Shanley and his estimable apouse, and given a cordising greeting. The entire establishment, from garret to cellar, was thrown open to them, and the majority of the party took the opportunity to examine the workings of the various departments of the institution. Some two hours were spent in this pleasant occupation, Mr. Shanley himself accompanying his guests through the house, and explaining everything to their satisfaction.

It was with some difficulty that he at last escaped her clutches, and took himself safely out of the building. Shortly before 4 P.
